MABEE AND ENGLISH IN RAHWAY.

Mabee and English have created great interest in the temperance cause in Rahway. Gordon's Opera House is filled every night. Four hundred persons signed the pledge in two nights, and red ribbons are to be seen upon many who heretofore have been hard drinkers. Some of the best known residents have signed the pledge and are working faithfully in the cause. When Josephus Shain, an ex-member of Assembly, C. H. Miller, a manufacturing jeweller at No. 12 Maiden lane, New-York, W. Harry Hall, Alfred Jewell, Stewart C. Shain, and many others signed the pledge, the outburst of applause lasted for fifteen minutes. This afternoon a temperance rally for men only will be held, for the purpose of organizing a club. Several grog-shop keepers are anxious to have their license fee refunded, and say that they will discon inue the business if they can get the rebate. A u ion meeting is to be held to-night and most of the churches have announced that they will hold no evening service. MABEE AND ENGLISH IN RAHWAY.

HUNTING IN THE ORANGE MOUNTAINS.

The Essex County Hunt had a run at Pine Brook, in the Orange Mountains, New-Jersey, yesterday morning. The meet was at 9 o'clock at the old-fashioned tavern, over a score of gentlemen riders being present, including representatives of the Queens County and Meadow Brook Hunts. About a mile and a half from Pine Brook the hounds were loosed in a field and soon caught the scent, and dashed away yelping, followed closely by the cavaleade of huntsmen. The fox led the way through Morris County toward Boonton, and then took a circuitous route in the direction of the Passaic River, giving a chase of about fifteen miles. The country was rocky and the riding exceedingly rough fir horse and man. Several fences were taken by the hunters, one a five-rail fence, and at last the fox songht shelter in a hole in the bush and brought the pack to a halt. The leading horseman killed the fox, and the trophies were awarded. At 2:30 dinner was served at the Pine Brook Hotel. HUNTING IN THE ORANGE MOUNTAINS.

FOLLOWING THE EXAMPLE OF MISS ASH. FOLLOWING THE EXAMPLE OF MISS ASH.

A colored woman, poorly clad, last Monday called at the house of Henry Smith, at Bridge hampton, L. 1. She was begging, and Mrs. Smith offered her employment. She was a ready and willing worker, and the family congratulated themselves on their good help. Snortly after 10 p. m. Friday Mr. Smith was startled by hearing footsteps on the roof. He went to the servaut's room, and she came out, locking the door after her. Mr. Smith made her unlock the door, and found a colored man dressed in women's clothing under the bed. He ordered the man to come out, at the same time covering him with his pistol. "Dat's all right, boss. I'se done surrender," said the man, and he came out, ran down stairs and made his escape. Mr. Smith then ordered the woman to leave the house, and she went, protesting her innocence, saying to Mr. Smith, "Dat man was only my lover, boss." She then left the house and has not been seen since.

The Second Fire Zonaves (73d Regiment, New-York Volunteers) will hold their annual meeting at No. 32 First-st, to-morrow evening. There will be election of officers, and a presentation of a testimonial to one of the old members, and arrangements will be perfected for joining in the Decoration Day parade.

DETERMINED TO DIE. DETERMINED TO DIE.

Louis Blumenzweig, a Hebrew seventy-four vears old, shot himself dead in his home at No. 234 West Thirty-second-st, yesterday. For several years he had supported himself and wife by putting glass in broken windows. Recently he became unable to work and suffered from incurable lung disease. He recently attempted to strangle himself disease. He recently attempted to strangle himself but his wife stopped him.

THE MARTIN JURY DISAGREES.

The jury in the case of Lewis R. Martin, who was jointly indicted with William E. Brockway and Nathan B. Foster, for the forgery of Morris and Essex Railway bonds, reported to Judgo Gildersleeve yesterday morning that they could not agree. They had been locked up all night and all the ballots taken in fifteen hours had shown the same result. They were discharged. Eight of the jurors were for conviction and four for acquittal.

THE CASE AGAINST GANDER & CO., DISMISSED.
The case of Gander & Co., keepers of an employment office at No. 16 Greenwich-st., was investigated yesterday by Mayor's Marshal McDermott. It was alleged that the firm employed ten Germans to work in the vicinity of New-York, and instead of doing so they were shipped to Cuba, and sent to work on a plantation near Cienfuegos. The defendants exhibited a copy of contracts made with the men, which showed that they were employed to go to Cuba, and the case was dismissed.

The office of the Register of Permits, in the City Hall, was again crowded yesterday with Italians and others anxious to secure permits for stands on the sidewalks. Nicola Paggi assied for a permit to keep a stand on the sidewalk at the Bowery and Canal-st. His application was signed by several business men. Nevertheless Alderman Kirk, whose signature was necessary, withheld it. It is alleged that the reason for his opposition is because Paggi voted for Thomas P. Walsh, Alderman Kirk's opponent, at the November election.

Mrs. Arthurs Hamblin went into her child's bedroom and found the family cat sitting on the child's
breast sucking its breath. It was some time before

the business to a hearing on May 12.

It was reported to the police yesterday merning that Charles Swat, age about fifty-five, formerly a shipping agent at No. 111 South-st., New-York, had been found dead in bed at the house of Herman Kinney, a liquor-seller, at No. 288 Atlantic ave. A number of medicine bottles which had contained morphine were found in his room, and it appeared that he had been taking the drug for insomnia. Coroner Menninger was of the opinion that the man did not constnit suicide, but that death resulted from the constant use of the drugs.

James McDermott, in whom the dynamiteurs take an interest, has written a letter from Helsingpore, Finland, ridiculing the idea that the Fenian Brotherhood of the city are after his scalp. He says that the Brooklyn part of the body is a myth and a bugaboo, and he declares that he has been "almost conspicuously present" in every capital of Europe during the last six months. It is not believed in Brooklyn that McDermott is 100 mins away from London. James McDermott, in whom the dynamiteurs take

ARREST OF A CATHOLIC PRIEST.

The Rev. Stephen O'Donnell, a Roman Catholic priest, forty years old, was locked up in the Fifth Street Police Station on Friday night on a charge of intoxication. He came from Illinois recently and boarded at No. 67 East Tenth-st, where he was introduced by Father O'Connor, Editor of The Converted Catholic. O'Donnell spent much of his time in the office of the magazine in the Bible House, and appeared to sympathize with the work of converting people to the "Retormed Catholic" doctrine. The arrest was caused by Father O'Connor, who said that he feared O'Donnell would lose some money which he had. O'Donnell was discharged in a police court yesterday. He said later that he would have nothing further to do with Father O'Connor.

A PHYSICIAN ILL WITH TYPHUS FEVER.

Alarm was caused in the Sanitary Bureau ten days ago by the sudden prostration of Dr. A. Randolph Mott, resident physician at the Riverside Hospital. With typhus fever. There had been fears of a serious epidemic of the disease in the Jewish quarter east of the Bowery, and about thirty persons from that part of the city were sick with the fever in the Riverside Hospital. Dr. Mott had charge of all the patients there. His health suffered in consequence of overwork, and the Board of Health had granted him a leave of absence when he was stricken with the fever. The fact of his illness was kept a secret in the Health Department for several days until Dr. Mott's relatives, who live in the country, were informed of his condition. It was said yesterday that Dr. Mott had passed the most critical stage of his sickness and had begun to improve. His recovery

is now regarded as almost certain. The illness of Dr. Mott has not caused the other physicians or the trained nurses in the hospital to relax their attentions to the other sufferers. There has been a steady improvement in the condition of those patients and no deaths have occurred at the hospital for a fortnight. Only three new cases of the dreaded fever were discovered in the city last week. Dr. Taylor, chief inspector of contagious diseases, said yesterday that the warm weather would compel the inmates of crowded houses to throw open windows for purposes of ventilation and the danger from typhus fever probably would vanish.

THE RUSH FOR LIQUOR LICENSES.

There has been such a rush of business in the office of the Board of Excise, at Bond-st, and the Bowery, within the last tew days that the clerks have been obliged to protect themselves against the flood of liquor dealers by an extra strong wooden railing. The licenses for about one-third of all the liquor-stores and beer-shops in the city expire each year between April 15 and May 15. That fact is due to the changes in the proprietorship of such places on May 1 of each year. The present Excise Commissioners do not pass upon the applications, during a rush of business, as quickly as former commissioners have done. They wish to be sure that none of the applicants are ineligible to hold licenses by reason of convictions for violating the excise law. Mr. Morris insists upon getting reports from police captains in doubtful cases and the other two Commissioners agree with him in his determination not to issue licenses to disreputable places. Delays in granting a larger number of licenses are inevitable under such circumstances. Upward of 500 dealers whose licenses expired about the lirst of the month have not been able to get their licenses renewed yet, because they did not make application early enough. The result is that the police will be expected to stop the sale of liquor for a few days in many places which will be licensed as soon as the Excise Board can be satisfied as to the character of the proprietors. During April 1,464 licenses were granted and fees amounting to \$102,975 were collected.

Gossip seemed to have spent itself in Wall Street on Friday. The emphatic denials by The Tribune of the most serious of the rumors were received with satisfaction by brokers yesterday. There were few stories put affeat, and so fluancial trouble was developed. The stock market was less excited than it had been, and white irregular, there was an advance in the prices of the principal stocks by noon. The afternoon dealings were marked by more weakness, however, but at the close the larger part of the list was higher than on Friday. The most important declines were in the Chicago and Northwestern and Curadian Pacific, but rumor did not busy itself with special explanations of their movement.

The "pat" and "call" brokers who hold privileges issued by James R. Keene continued the work of comparing memoranda with him of their contracts. Among some of the brokers a bitter feeling is shown toward the California operator. They complain that many of his privileges were sold when he was really insolvent and knew the fact. They intimate that in that case he is liable to legal action, but while a disposition exists to take some recourse to the law it is doubtful whether any steps will follow the feeling. WALL STREET QUIETER, BUT FEVERISH.

"Do you believe that a woman nowadays would die for the object of her love!" asked a bachelor friend. "I don't know whether she'd die or not," answered the Benedict, "but I've known her to go wild when the trimming didn't suit her."—|Newport News.

THE VAST EVILS THAT POLLOW GREAT DISASTERS-A MINISTER'S MANNER OF MEETING THEM.

A MINISTER'S MANNER OF MEETING THEM.

(Cincinnati may not deserve the reputation of being a "Festive City." but it certainly controls a monopoly of Festivals. First it was the Opera Festival, next the Dramatic, and more latterly it has been the Flood and Riot Festivals. First it was the Opera Festival, next the Dramatic, and more latterly it has been the Flood and Riot Festivals. These latter Carnivals may not possess the attractive features that the two former were supposed to have, but they are none the less likely to prove powerful and more lasting in their results. I had a very interesting conversation bearing upon this subject, with the Rev. J. Pike Powers, the well-known Divine, who has charge of the Baptist Church at Owenton, Ky., a few days since, I found that the Reverend Doctor was very well versed in matters pertaining to the welfare of the World, as well as the Church. In the course of our conversation he suid:

"The effects of both the rlots and the floods are such as to naturally cause keen regret. The former show, in a distressing degree, the extremes to which human nature can go when in its freuzit state, whether justifiable or unjustifiable. It takes a long while for a community to become reconciled to the quict of everyday life, after such a furore as we have had.

"But do you think that such an uprising is more to be regretted than the floods?"

"That is hard to say. There are very many things that follow as the result of a freshet that are greatly to be deplored. Principally among those may be mentioned the damp and unhealthy condition in which the country is left, by reason of the overflow of water. The drying up of the water by the sun causes miasma of a dreadful nature to be generated, which sows the seeds of disease and death in the community. Indeed, this is true of the spring-time in all regions, whether they are visited by freshets or not. There are millions of people in this country who are at this moment drawing in rank poison with every breath they take, and the wonder to me is tha

checked. I relieve it is a part of the nigness "mandious fortify the system against the inroads of such institious evils."

"But that is a difficult thing to do, is it not, Doctor!"

"I once thought so but have changed my mind since the experience I have had with my own family. I have found that by the use of what is certainly a most valuable preparation the whole body is so toned up and invigorated that it can repel these malarial enemies of health. That preparation is Warner's Tippecance, and I believe in it most implicitly, for I have seen what wonderful things it could accomplish."

"Have you tried it thoroughly!"

"Yes. One of my soms had suffered severely from dyspepsta and mal-assimilation of lood coupled with headache and diziness. We tried various preparations without avail, and it was not until Tippecance was given that he began to improve. He was greatly reduced in flesh, had a lump in his stomach apparently as hard as a brick-bat; his appetite was poor, and he looked very badly. We were distressed about him. This remedy has, however, restored his appetite, corrected his stomach, relieved his headache, and now he is growing fat and can eat almost anything without distress. Mrs. Powers is enthusiastic upon this subject and so am I. You see, many so-called stomach preparations are composed so largely of alcohol that they create an appetite for strong drink and encourage vice. This preparation I have named is an exception, and I think it should be universally known."

And that is why the above interview is published.

Is the season in which bad or poisoned blood is n show itself. Nature, at this juncture, needs something to as-sist it in throwing off the impurities which have collected by the singgish circulation of blood during the cold winter months. Swift's Specific is Nature's great helper, as it is a purely vegetable alterative and tonic. Rev. L. B. Paine, Macon, Ga., writes: "We have been using swift's Specific at the Orphans' Home as a remedy for blood complaints, and as a general health fonic, and have had

remarkable results from its use on the children and employes of the institution. It is such an excellent tonic, and keeps the blood so pure, that the system is less liable to disease. It has cured some of our children of Scrofula." W. H. Gilbert, drugglest, Albany, Ga., writes: "We are selling large quantities of Swife's Specific for a spring alter-ative and general health tonic, and with the best results. It is now largely used as a preventive and cure for Malaria. There are many remarkable evidences of its merit in this sec-
